# PROSPECTUS

# Give Your Child The Future-Ready Advantage!

## WELCOME TO THE BCG FAMILY!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. It began in 1988 with the awareness that the true meaning of education is yet to be discovered. Inspired by great thinkers of the times, BCG pioneered several educational child-friendly concepts ahead of time. Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG ensures our faculty is trained to nurture the minds and hearts of the developing child. Today, more than 30 years later, all of our innovations have found validation. Every educator and behaviourist unanimously holds these practices as essential to the growth of children.

1989: Focussed on developing a healthy mind, BCG instituted the first **counselling and remedial centre**.

1990: **Computer education** was introduced for all students from the age of 6 years.

1991: **Stress-free educational practices** adopted, eliminating competition and formal examinations for children upto age 10.

1993: To help students make a smooth transition through developmental stages, BCG introduced **life skills education and career guidance** (now SELC).

1995: **HRD department** established to create sensitive school environments.

1996: Department for **Curricular Planning and Development** instituted to provide the best educational material for our students.

1996: **Parent programmes** offered to develop a strong and positive school-parent partnership.

Innovation in education is no one's prerogative. Every child everywhere deserves a good education with caring and sensitive educators. We have been fortunate to have been able to serve and contribute to this field, and have generously shared our learning with the fraternity and the community. To be a part of BCG means to learn along with your child, to share your learning, and to move into the future with confidence and clarity. Our students excel in all fields, at all levels. Their achievements in public examinations and competitions are a matter of pride and a testimonial to our educational philosophy.

As Plato said, "The direction in which education starts a man, will determine his future life." In BCG, **every child matters...** and it is reflected in every plan, process, and practice of our schools. We welcome you to begin your child's journey with us.

**Vikram Patel**  
Chairman

# Why Us?

# About Bombay Cambridge Gurukul

## Our Mission

is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behavior in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21<sup>st</sup> century skills, and a sensitive curriculum which develops equally the hearts and minds of our students.

## Studying in Bombay Cambridge Gurukul

is an unforgettable experience. Our students are our priority and at the heart of all our planning. It is our constant endeavour to provide learning experiences that are rich in diversity, appeal to multiple learning styles, and empower students with the confidence that comes from experiencing success.

## Our Vision

is to generate world graduates, who possess the crucial skills and values to develop a humane society, and be the fore-runners of thought as responsible citizens of a global community.

# Welcome to Bombay Cambridge International School

**Poonam Arora**  
Principal

School plays a pivotal role in nurturing and developing the potential of children and we at Bombay Cambridge International School believe that every child is unique, waiting for that potential to be tapped and channelized.

In the fast paced world, characterised by new challenges, we ensure a happy and safe learning experience. The school philosophy and child centred practices are reflected in all the academic and non-academic activities and are the foundation of the humane and sensitive school climate. Along with our knowledge-friendly and student sensitive curriculum, our Social Emotional Learning Curriculum (SEL) from Kindergarten to class 10 equips learners to make good decisions, behave ethically and develop positive relationships. The PEACE Code formulated by the school Student Council, promotes an attitude of friendliness, acceptance and comfort for all students.

The pandemic has created a global crisis and the impact on education has been felt by all. Our school has ensured a seamless experience of virtual classrooms through intensive research, training and support for all – parents, teachers as well as students. Our parents have been our co-partners in this new journey making it possible for us to explore and develop methodologies to meet the needs of our children in these difficult times.

Our goal is to create 'World Graduates' who are future ready when they leave school and are able to apply the 21st century skills to successfully negotiate every turn in life. It is our commitment to our students to provide the best learning environment - whether offline or online, so that each one of them is confident, skilled and feels valued because to us, 'Every Child Matters'.

**Multi-Dimensional  
Modes of Learning...**

BCG Academia provides students with an option to study under the

- Cambridge Assessment International Education, UK (IGCSE) or
- Maharashtra State Board Secondary School Certificate (SSC)

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A\* achievers in IGCSE and over 75% of our students scoring over 90% in the SSC exams – BCG's superior curricular program caters to every type of learner.

**...including online**

# Cambridge Assessment International Education, U.K.

Here, at the Bombay Cambridge Gurukul, we take the approach that each child is unique, with special talents and abilities and an individual learning style.

The EYFS or Early Years Foundation Stage sets high standards for inclusive learning and development of children in pre-school years. The cognitive development of the child is highest during these formative years, and the curriculum has been effectively designed to make sure children get to the next stage of learning with confidence.

Our Prep classes offer a safe and caring learning environment, which promotes age appropriate and all-round development. More importantly, students are prepared with the right attitude to learning that will ensure success in mastering the world-class content of the Cambridge course.

## Cambridge Primary & Secondary Course

Learn • Discover • Achieve  
Cambridge Associate School

**The Cambridge International curriculum sets a global standard for education, and is recognised by universities and employers worldwide. The curriculum is flexible, challenging and inspiring, culturally sensitive yet international in approach.**

Cambridge students develop an informed curiosity and a lasting passion for learning. They also gain the essential skills they need for success at university and in their future careers. Cambridge uses internationally benchmarked tests, giving parents extra trust in the feedback they receive.

The programme at Bombay Cambridge International School Andheri (West) develops young learners who are confident, responsible, reflective, innovative and engaged. At each stage, students build on their previous learning – and our syllabus design reflects a ‘spiral’ approach, providing a natural progression throughout the primary years and beyond.

The popularity of Cambridge IGCSE curriculum has been steadily increasing among parents because the Cambridge Assessment International Education offers students several advantages over other boards.

Here are some of the biggest benefits and advantages IGCSE offers:

### **A Range of Choices:**

Our students choose subjects by grade 8, so that they can focus their attention and energy on building crucial concepts and skills in a stream of their choice.

### **Proficiency in English:**

With English as a First Language, our learners gain high proficiency and fluency in communication skills, leading to a strong identity and voice in the global space.

### **Global Connect, Local Relevance:**

While IGCSE strongly encourages students to develop a global outlook and promotes international mindedness, our students build strong ties to their local and cultural roots right from the early stages.

### World-Wide Recognition:

IGCSE is like the Gold Standard of educational qualifications and is accepted and recognized by the world's best universities, organizations and governments. Several BCG students are now studying or working with the best minds in the world.

### Lessons for Life:

The methodology encouraged by CAIE builds sustainable academic skills in students. With its application based approach, students develop into independent and confident learners.

With its quality assessments and inquiry-based approach to learning, the Cambridge IGCSE ensures that its learners have 21st century skills preparing them to be international citizens of tomorrow.

2020-2021

MAHIKA GAIKWAD

95.67%

*Time flies, doesn't it? There was a time when I was just a kindergartner when I walked through those school gates, getting excited to learn something new and perform different activities. Now, here I am, having completed my Class 10 th board examinations and writing about my school here. I am very proud to be from Bombay Cambridge International School. It is very true when they say 'Every Child matters'. The school teachers and staff care for every child's needs and believe that every child is special and is capable of achieving success in their lives. They encourage students to pursue their passion and tell us to dream big and aim for the skies. There is a line in our Gurukul Song which says 'We are the force that's driven, to achieve the impossible'. This line tells us that if one works hard and has the dedication and determination in fulfilling their dreams, then nothing can stop them. The core values of our school are 'Sensitivity, Courage, Reasoning and Integrity' and we are taught to imbibe those values in ourselves. I am grateful to my school for supporting me on every part of this journey and I believe that they will continue to do so for every student present there.*

Cambridge  
International  
AS & A Level

Our schools Dr. S. Radhakrishnan International at Malad (West) and Bombay Cambridge International at Andheri (East) offer the Advanced Levels (A and AS) in the key streams of higher education.

# Maharashtra State Board (SSC)

## Gurukul Kindergarten

The Kindergarten curriculum is implemented using the play-way method, and includes consciously planned activities for all round development. It is designed to match the pace of individual learners and calibrated to their developmental stage. The students enter the world of Primary education with confidence and build on the foundations of skills acquired in pre-school.

### Primary and Secondary education:

The course is as prescribed by the Brihanmumbai Municipal Corporation for the Primary, and as per the Maharashtra State Board of Education for the Secondary section. The teaching methodology uses the prescribed textbooks of the Maharashtra Board and includes field trips, project work, and specially designed worksheets that ensure complete learning and inculcate the habit of self-management.

Students have an environment that allows them freedom for individual expression, and develops the capability that is required to show achievement in the final examinations as per the standards set by the Board. The academic level of students shows that they are well upto the standards of measurement, while at the same time, able to participate in the numerous activities that the school provides for them. The students are bench-marked with the best in the State and participate in various events and competitions organized by the Education Department.

Our students have consistently made us proud with their extraordinary achievement at the SSC Board examinations.

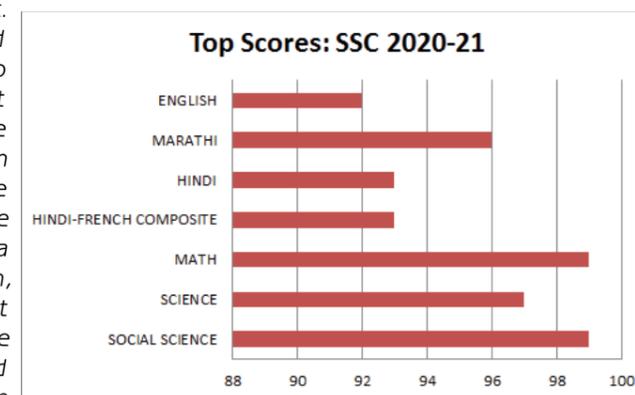

## SSC Topper

2020-2021

MOHD. ZAHEEN KHAN

96.40%

*'I never dreamed about success. I worked for it.' Having scored 96.40% in my board exams is indeed a dream come true. The secret behind this is being sincere, determined and focussed in studies. Triumph doesn't come to you, you've got to persevere and put your heart and soul into it. I prepared a time table, devoted time to solving papers and got my doubts cleared from my teachers. I am grateful to my teachers who not only instilled in me the subject knowledge but also imparted values, taught lessons of life and discipline. My journey to the top wouldn't have been possible without the unstinted support of our adorable Principal Ma'am, loving Secondary Head whose words gave me an impetus to excel and my family for giving me a learning environment to grow. Being the School Captain, didn't deter me from soaring higher academically. In fact the activities, competitions and games planned during the year with my team helped me develop my all round personality and honed my leadership skills too. Passing on the motivation, I would like to tell you friends, persist, and resolve to give your hundred percent. What really matters is motivation and putting in hours of rigorous self-study habits. Aspire to reach for the stars!!! After all, 'Success is where preparation and opportunity meet.'*

What is SELC?

# The Social-Emotional Learning Curriculum (SELC)

Social & emotional learning (SEL) is the process through which children understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

## 1 Life Skills Education Modules:

The emotional safety and well-being of children is as important as their physical growth and well-being. The life skills sessions are developed by trained and experienced professionals from the field of Education and Psychology to provide platforms for discussions with students at all levels from pre-school to class 10.

## 2 Global Responsiveness and Sensitivity Program (GRASP):

Relationships form the core of all human values, and the programme helps students learn their relationship with themselves, with people around them, and with all elements of their environment. In GRASP sessions, educators provide students opportunities to learn about their environment, the impact of human behaviour, the advantages of diversity, and priorities set in the world agenda. Secondary section students have an opportunity to serve on the Student Council, and involve themselves in the planning and implementation of the Student PEACE Code towards building a positive school environment.

Senior students are provided important life experiences during camp, where they engage in adventure and inter-personal bonding activities under the professional supervision of experienced trainers. Placed in semi rustic conditions and surrounded by nature, students work in teams, explore their inter-personal strengths and challenges, build resilience, learn to care for the environment, and share resources.

The 5 competencies of SELC:

Self awareness

Self management

Social awareness

Relationship skills

Responsible decision making

### 3 Annual Fests:

With the school's 100% participation policy, every student from Kindergarten to class 10, participates in events that display their particular talents and aptitudes. Students present these skills to their parents in a grand function that is celebratory and euphoric, filling everyone with a deep sense of pride for the school and its students.

#### Performing Arts:

**Kaleidoscope** for the Kindergarten and **Crescendo** for the Primary and Secondary – students display their talents on the annual cultural day, a fine blend of skills and aesthetics learned through their art, craft, dance, drama and music courses.

#### Sports and Games:

**Head-Over-Heels** in Kindergarten and **Momentum** for Primary and Secondary – the Annual Sports Meet is the culmination of fine and gross motor skills learning, set in age appropriate activities, displays and competitive sports. Senior students can opt to be in the school's sports teams for basketball, throw-ball, handball, football and kho-kho, & play at inter-school matches and sports meets. Indoor games such as chess, carrom, table-tennis and badminton are also encouraged in school.

#### School Exhibition:

The school annual exhibition **Effervescence** has students' present to parents their skills with academic projects related to the different subjects they study, and the practical application of key concepts. Students prepare models and charts and demonstrate experiments which showcase their knowledge and skills. In the lower classes, the school organizes a fun-fair where parents can bring their children to enjoy games, rides, and edible treats. It is a great family outing and lots of fun.

What make the annual fests special is that the best of the school is on display, the students and staff play host to our honoured guests – the parents, and a festive environment of camaraderie and excitement pervades the hearts and minds of all present.

### 4 Personal Awareness and Career Explorations (PACE):

The PACE programme provides access to professional online portals so that students can explore their interests and aptitudes. Students acquire the competencies and awareness required to develop a road-map to their further education and future career.

### 5 Enrichment Activities:

Under the **Global Schools Program**, supported by UNESCO, our senior students engage in various community projects that bring to them the experience of civic responsibility, social awareness, understanding realities of different segments of society, value of empathy, compassion and generosity, as well as understanding the power of action. Students learn that they can make a difference, and that real change has to begin with them.

In keeping with the school's belief that competitions and comparison are damaging to children at a young age, BCG introduces **interschool competitions and examinations** from the age of 11 years onwards. From class 5 onwards, students are offered a multitude of opportunities at the national and international level.

With trained teachers to guide their preparations, our students excel in these and their achievements are our pride.

# School Facilities

Our school facilities are consciously planned to provide the best advantage to the learner, and to ensure educators have every teaching method available to them. These systems provide support for all types of learners, and ensure that essential skills for responsible citizenship and personal care are taught to students, leading to successful integration in a rapidly-changing global environment.

- Qualified and Experienced team of educators
- Air-conditioned classrooms
- Play area for Kindergarten
- SMART Board technology
- Contemporary Science Laboratories
- State-of-the-art Computer Centres
- Open-access Library
- Coaching for Games & Sports Activities
- Counselling & Remedial Services
- PACE – Career Development Programme
- Centre for Educational Design & Publishing
- Department of HRD

The school canteen offers delicious and hygienic food for students, a fond memory of the alumni. The transport services of the school are professionally managed, with female staff. The school security system is manned by experienced staff, and supported by CCTV cameras and biometric systems. The school has regular safety audits and an active **Child Protection Policy**.

We have a **dedicated school app** for parents which regularly updates them about the activities in their child's class, their data on school records and notifications about important events. This helps the parent stay current on all information related to their child and the school at the click of a button.

During the pandemic, the school has successfully established a fully functioning online classroom system with Google Classrooms, so that student learning continues effectively. Our fully trained staff rose to the occasion magnificently and guided students and parents into a smooth transition with sensitivity and care, providing exciting and interesting activities for learning on our online platform.

# The School Captain Speaks...

The title I own 'School Captain' is not merely a pair of words but a deep responsibility which has to be fulfilled. The names of our house groups and our titles depict our sincere efforts and unhindered motivation of all the members of our school be it students, teachers, Principal, section heads and all the support staff. It depicts the ever high spirit of the students. It depicts the extreme patience of our teachers. It also depicts the excellent leadership of our Principal.

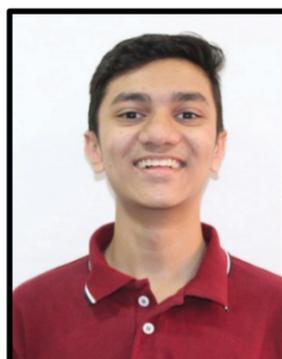

As this pandemic shook the world, we didn't panic, grieve or succumb to our downfall but we challenged the situation, struggled and grew. The slogan of our school 'We are the Change', I am proud to say, we fulfilled its right. We chose to focus on the solutions rather than problems. We got our motivation from our core values of Courage, Sensitivity and Integrity. Not giving in to the negative incidents but learning from it we continue to grow and inspire new young hearts. That's why BCISW confidently states, 'Every Child Matters'.

Student Council has taught me such pertinent lessons that cannot be unlearned throughout my life. The huge opportunity of being a part of the student council is indeed an important stage in my life and the experience I got, I believe, will help me in other arenas of my life as well. We have learnt coordination with fellow mates, thanks to the activities we conducted all year around in different forms like games, competitions, videos or posters. According to me the unsurpassed support of our teachers is the only reason we are able to carry on the tasks we never ever imagined of doing. All credit of the successful programmes we held goes to the unmatched and unique training we got from our leadership workshops. Feeling the pain of the miserable and the joy of the blissful is what we practice. We are taught to have hope in most despairing moments and to stay humble in the most jubilant situations.

In life, even if the winds blow with strongest of forces, we won't wilt even slightly. Such sturdy and indestructible foundation BCISW has forged in us. Holding on to our culture and traditions, we will continue to strive to become the best of people and toil towards the betterment of our society.

**Misbahuddin Syed**  
**School Captain (2021-2022)**

**Bombay Cambridge International School**  
**Bombay Cambridge School**

# Learning Never Stops In Our School

The pandemic and the lockdown did not deter our spirit to provide students with an online school experience that closely resembled the offline school routine.

## Initiatives taken by our school to support students and parents during the lockdown:

- **Helpline for students and parents** to seek counseling and remediation online
- **Handouts on Mental Health** by the Counseling Team circulated to all parents
- **Competitions during lockdown** for students and parents to keep them engaged
- **BCG/BCE Beams** to update parents and staff about school events and achievements
- **Parent Webinar** - Calm The Chaos to help them know how to manage stress in families
- **Virtual Career Awareness Programme** to guide our Class 10 students towards informed career choices
- **Training programmes, surveys and feedback** to know how students and parents are adjusting to the new education method
- **Activities and events** like celebration of national days, international days, annual school events like cultural day, club activity for secondary section students, inter-house competitions by the Student Council, workshops and webinars for students, virtual field trips

## Achievements in BCG Online Student Competitions

Competition	Name of the student	Class	Ranking
Parent and Child Art Work	Svarnika Patil	Class Prep 2	1 <sup>st</sup> place
	Radhika Karandikar	Class 5	2 <sup>nd</sup> place
	Rutvik Parmar	Class Snr KG	3 <sup>rd</sup> place
	Saloni Kambli	Class 7	3 <sup>rd</sup> place
Making a Model Using Household Items	Muskaan Jaggi	Class 8	1 <sup>st</sup> place
Digital Poster Making	Aditya Novare	Class 6	1 <sup>st</sup> place
Mask Making	Harshita Mistry	Class 8	1 <sup>st</sup> place

We are proud to share that the school represented Maharashtra at the State level for the 3<sup>rd</sup> consecutive year for the prestigious research based National Children's Science Congress (NCSC) project.

## Competitions for Families

- Video on keeping children busy during the lockdown in an innovative way
- Slogan on staying safe during Covid-19
- Dance competition
- Fancy Dress competition

## Additional Opportunities

**Competitions:** Council members organised an online poem competition on Mentor's day along with various other competitions like a monologue competition on Books lover's day and Online dance competition on Independence Day. Photography competition was conducted on World Photography Day which was linked with environment to promote usage of recycled objects. A comic strip making competition was organized on World Ozone day which emphasized the significance of ozone layer. On Indian Air Force Day, a video making competition was conducted to express the gratitude towards the Air Force. Digital chart making competition was also held on World Unity Day and essay writing competition was conducted on National Law Day. Council didn't want to lose an opportunity to keep working towards conserving the environment, with this aim in mind, an article writing competition was also held on World Energy Conservation Day. An Elocution competition was also conducted on National Youth Day whereas on the occasion of Republic day, a photography competition was held where students made national flag using their innovative ideas. Looking at the present scenario, digital Collage making competition was conducted on Safer internet day to promote safer internet practice.

# Our Illustrious Alumni

**Dr. Dwayne Menezes**  
2001  
Associate Fellow, Institute of  
Commonwealth Studies,  
Univ. of London

At Bombay Cambridge, every child was taught - whether in classroom, exhibitions or competitions - that aspiration is good, that everything is possible if one sets one's mind to it, and that courage, confidence, strategy and diligence were greater determinants of achievement than one's background. What is likelier to affect a child's attainment in school and in life is his or her mental and emotional well-being. This is one area where I believe Bombay Cambridge sets the gold standard.

**Swapnali Yadav**  
2003  
Professional Swimmer  
and Model

I can proudly say that my school has greatly influenced me to pursue my dreams. BCISW supported my passion for swimming in every way. I take pride that I was conferred upon the title of 'The Little Mermaid' by Greece, 'Dolphin Princess' by Bermuda, 'Crocodile Princess' by Australia. I have won 12 National awards and broken 5 world records, have been mentioned in 6 Limca Book of Records - all due to the constant motivation of my Principal and my teachers' persistence.

**Mirza Samnani**  
2012  
Mechatronics Engineer  
and Executive Pilot  
at Aavirtual

Years of experiences, lessons and memories summed up in one word - BCISW. My school has played a vital role in shaping me into a responsible citizen of the society. It's here that I imbibed the qualities of discipline, empathy, honesty, punctuality, in addition to the four core values that a BCGian possesses. I am grateful to my teachers who provided me a platform to nurture my passion and make it my career.

# Parent Testimonials

Bombay Cambridge International School has always given their best to their children. The teachers teach students in different innovative ways which makes learning fun, engaging and more interesting. They give personal attention to each and every child in the classroom. Their teaching sessions are interactive, where students can get their doubts cleared by the teachers within no time.

I also feel proud to share that there are no limits when it comes to teaching - online teaching has never restricted them from giving their best during this pandemic.

I would definitely recommend Bombay Cambridge School to others. This school not only focuses on academics but also help children to build their personality and prepare them to face the outside world. They work hard for the betterment of every child's future; after all, here, every child matters.

**Ms. Aparna Gaonkar**  
Parent of Nikita Gaonkar - 2020-21

There are many things that I admire about the school; friendly and safe environment, brilliant teachers and modern learning - just to name a few. The school helps the children grow intellectually and emotionally.

I really appreciate how quickly the school adapted to the "new normal" during this pandemic by implementing a radical way to teach. The teachers made sure that the students kept learning even in these trying times. I have witnessed how Chaitra turned from a shy, introverted boy to a confident public speaker - props to the teachers and staff of the school.

Surely I would recommend this school to other parents as it has, along with helping my child in academics, also inculcated moral values and skills in him. I am sure that he will always cherish the memories of the school forever.

**Ms. Sunila N. Samant**  
Parent of Chaitra N. Samant - 2020-21

Our journey with BCIS started 3 years back when our daughter was first enrolled for the Prep 1 class and must say, it has been an incredible one.

The school provides a very safe, supportive and stimulating environment for all students, encouraging them to forego their fears and shine in every field with excellence. The dedicated teaching staff goes an extra mile in recognizing the innate potential of every child and inspires them to follow the righteous path. The support staff is very friendly and approachable, ensuring they provide a very conducive home like environment for kids to grow. The school not only emphasizes on quality education but also believes in providing a global exposure to all students, keeping them abreast with today's modern evolving society. Overall, the school strives in developing the all-round personality of each and every child, making it one of the best schools in Mumbai. We as parents are very happy and fortunate to have chosen BCIS as our daughter's center for learning.

Much gratitude & many many thanks!!!

Kind Regards,  
**Ms. Sushma Salian**  
Parent of Saisha Salian - Class 3

# Gurukul Song

At the beginning, Mohammed and I were very sceptical about classes being conducted online. I doubted his ability to sit for long hours in front of a screen.

However, I must say I am delighted with this initiative now. The best part about e-learning is that kids don't have to waste this crucial time.

I am immensely thankful to all the teachers for being patient with him. I know a lot of efforts have gone to make online studying platform work. However, with no end in the sight of this pandemic, this was very much needed.

Parent of Mohammad Adenwala,  
2020-21

Since lockdown, we were tensed about Tanishq's studies since this was his crucial year of 10th std. The day our school started this new endeavour of 'online teaching', we were convinced that our son's study is not going to suffer in any way. All the teachers are giving their best. I can see my son enjoying the sessions and that makes me feel relaxed about his boards now.

Let me extend our regards to the entire team of Bombay Cambridge International School who are handling such a complicated platform of online teaching so calmly and patiently.

This Corona pandemic will definitely get over but the impact both good and bad will always be remembered.

Ms. Maya Hemat Arora  
Parent of Tanishq Arora - 2020-21

I, parent of Ayesha Shaikh would like to share my gratitude to the principal and teachers with a summary of my experience at school. I got influenced when I came across a student of this school while I was in my professional college. Till date the quality is not compromised, the ethics and etiquettes are intact. The principal stands for the word 'principle', which she passionately tries to imbibe in her students.

As a head, yes, she is a leader who leads by example. Her words are promises and she fulfils them. If you need quality education with morals, and a conscientious fighter with the weapon of knowledge, Bombay Cambridge International School, Andheri West is the perfect choice.

I thank Poonam ma'am and all the teachers of all classes and subjects who helped to transform my child from wet clay to a beautiful precious pot. I wish success and blessings to all the staff including security, bus, reception and peons who provide a secure and safe environment - a parent can blindly rely upon.

Thank you,

Dr. Yasmeen  
Parent of Ayesha Shaikh (IGCSE Topper)  
2018-19

We are the Leaders that inspire  
We are the spirit of the People  
We are the Force that's driven  
To achieve the impossible

Chorus

We dream and we know  
We care and we show  
We are the teachers and  
We are the learners  
Forever thus we grow (2)

We are the wave  
We are the ocean  
We are the heirs  
To the legacy of Reason  
We are the Force that's driven  
To achieve the impossible  
(Repeat chorus)

We are the light  
We are the laughter  
We are the caretakers  
Of Time hereafter  
We can change the lives  
Of all like you and me  
We can turn the tide  
And create the land and sea  
(Repeat chorus)

We are the Leaders that inspire  
We are the spirit of the People  
We are the Force that's driven  
To achieve the impossible  
(Repeat chorus)

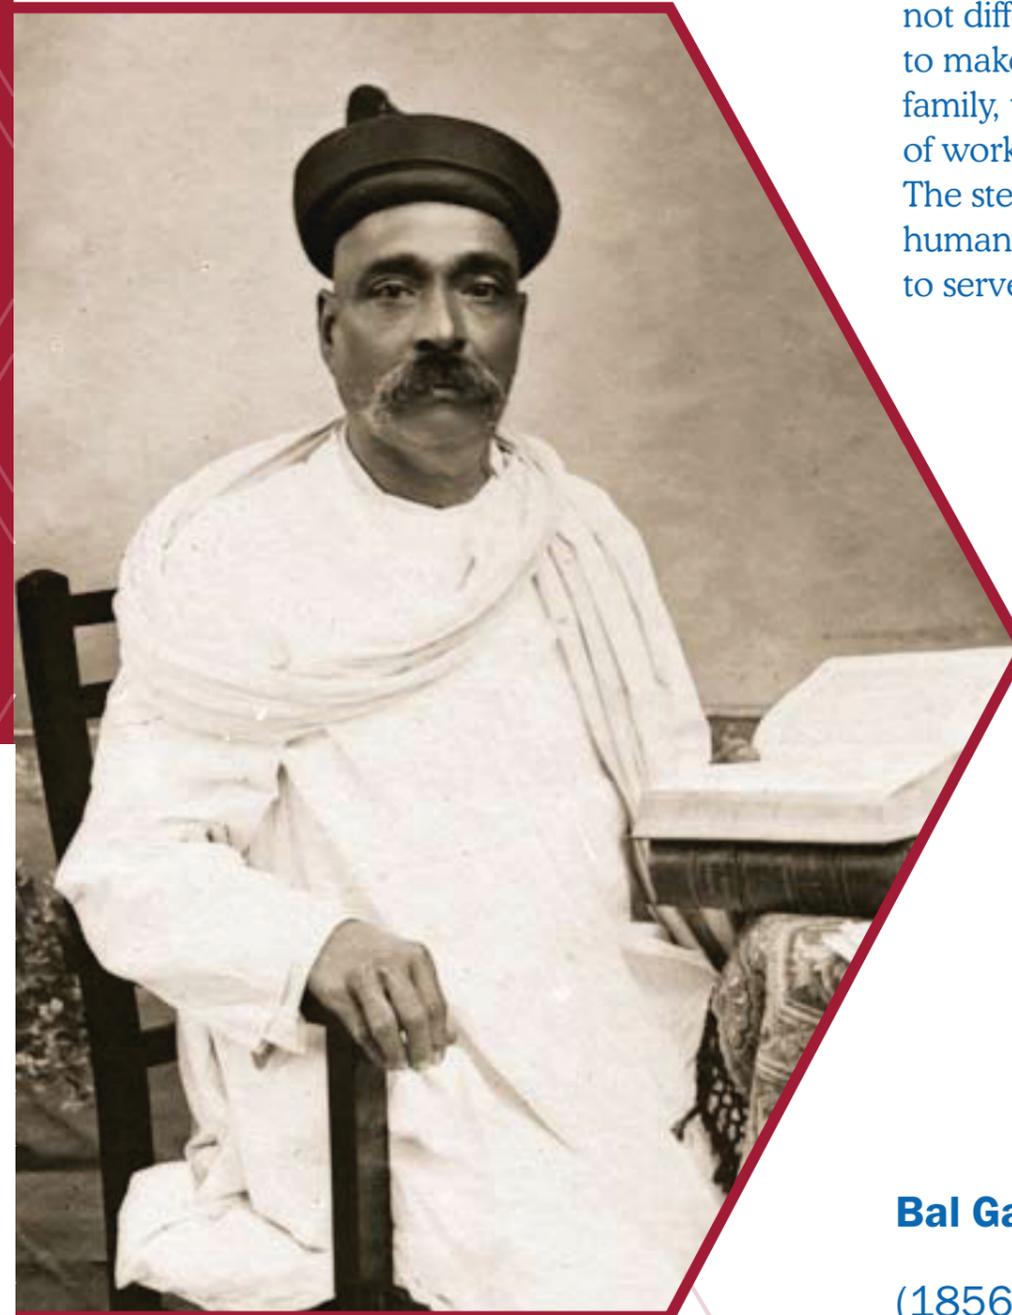

The LeAD offers programmes for schools and its various stakeholders, towards developing an environment conducive to student's healthy growth and development. Students are challenged with rapid changes in the social and technological environment, while adults are struggling to guide them. LeAD provides many opportunities for adults and students to brainstorm, discuss, and learn based on professional research and study. LeAD provides training programs, workshops and consultation to educators, parents, and students, in BCG and in the larger educational community.

CEDP is the BCG's hub for academic analysis and development. Comprised of professionals, they study syllabi and develop learning material for teachers and students, including worksheets. Guided by the CEO, they provide content that supplements the course plan as well as material that enriches the teaching-learning process. In addition, they design and develop resources for educators, customizing it to their requirements. Their high quality services ensure that the BCG schools are always well supported and equipped with the best curricular material.

## Our Mentor

“ Religion and practical life are not different. The real spirit is to make the country, your family, work together instead of working only for your own. The step beyond is to serve humanity and the next step is to serve God. ”

**Bal Gangadhar Tilak**

(1856 - 1920)
