Cambridge International School

Welcome to the BCG family!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. Since 1988, inspired by great thinkers of the times, BCG pioneered the concept of 'caring schools', introducing several child-friendly concepts ahead of time, validated today by educational research across the globe.

Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG schools have a robust digital, life skills and curricular program. Our alumni are spread across the globe, and are active mentors to our students.

In BCG, **every child matters**, and it is reflected in every step of our course plan and activities. Our educational program is driven by our mission - excellence in academics and excellence in behaviour! We take pride in our students' accomplishments, and their achievements are a testimonial to our educational philosophy.

Parents play an integral role in setting direction for their child, and our partnership will provide the impetus for success. We welcome you to begin your child's journey with us, and look forward to a long lasting and enriching relationship.

Vikram Patel
Chairman

MISSION

Our Mission is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behaviour in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21st-century skills and a sensitive curriculum which develops equally the hearts and minds of our students.

VISION

Our Vision is to generate world graduates, who possess the crucial skills and values to develop a humane society and be the forerunners of thought as responsible citizens of a global community.

School plays a pivotal role in nurturing and developing the potential of children and we at Bombay Cambridge International School believe that every child is unique, waiting for that potential to be tapped and channelized. The school philosophy and child centred practices are the foundation of the humane and sensitive school climate.

Along with our knowledge-friendly and student sensitive curriculum, our Social Emotional Learning Curriculum equips learners to make good decisions, behave ethically and develop positive relationships. Our goal is to create 'World Graduates' who are future ready when they leave school and are able to apply the 21st century skills to successfully negotiate every turn in life.

It is our commitment to our students to provide the best learning environment - so that each one of them is confident, skilled and feels valued because to us, 'Every Child Matters'.

BCG Academia provides students with an option to study under the Cambridge Assessment International Education, UK (IGCSE).

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A* achievers in IGCSE, BCG's superior curricular program caters to every type of learner.

Cambridge International School

Cambridge Primary and Secondary Course

The Cambridge International curriculum sets a global standard for education and is recognized by universities and employers worldwide. Cambridge students develop an informed curiosity and a lasting passion for learning, along with essential skills needed for success at university and in their future careers.

The program at Bombay Cambridge International School develops young learners who are confident, responsible, reflective, innovative, and engaged.

Gurukul International Kindergarten (GIKG)

Our GIKG follows the adapted EYFS methodology. The EYFS or Early Years Foundation Stage sets high standards for inclusive learning and development of children in pre-school years. The cognitive development of the child is highest during these formative years and the curriculum has been effectively designed to make sure children get to the next stage of learning with confidence.

Learning through play, activities, and field trips, the EYFS course content builds on the interconnections inherent in Communication and Language, Physical Development, Personal-Social-Emotional Development, Literacy, Understanding the World, Mathematics, Expressive Arts and Design.

Advantages of IGCSE Curriculum

- 01 Choice of subjects by Grade 9 so students can focus their attention and energy on building crucial concepts and skills in a stream of their choice.
- 02 Proficiency in English leads to strong communication skills, identity, and voice in the global space.
- 03 Global connect and outlook promoting international mindedness and also ensuring strong ties are maintained to local and cultural roots right from the early stages.
- 04 Worldwide recognition by the best universities, organizations, and governments.
- 05 Lessons for Life, building sustainable academic skills, and helping students become independent and confident learners.

Our schools Dr. S. Radhakrishnan International at Malad (West) and Bombay Cambridge International at Andheri (East) offer Advanced Levels (A and AS) in the key streams of higher education.

I am indebted to my teachers who helped me at every turn and made the tests easy, cleared my doubts, even though I didn't take any tuition classes. The staff and curriculum are of the highest calibre at BCISW. This Gurukul has nurtured, groomed, shaped and moulded me into a better human being and I am confident that it will help more students in their pursuit for excellent education. I can't think of any instance in which the school even remotely let me down, between the teachers and my cherished family, of course - who helped me out whenever I fell short in any task and the curriculum material the school provided, like textbooks, worksheets, and even calendars, which always helped me in my studies.

What is SELC?

Self Awareness, Self-Management, Social Awareness, Responsible Decision Making, Relationship Skills

BCG has been a pioneer in establishing the Social Emotional Learning Curriculum. We place equal emphasis on both the behavioural and social-emotional development of students as part of our commitment to delivering a future-oriented education, in order to equip our students with vital life skills thereby promoting not only academic success but also overall well-being.

Life-Skills Education Kindergarten to Class 10

- ✓ Emotional Management
- ✓ Understanding Relationships
- ✓ Managing Conflict and Stress
- ✓ Safety in the Physical and Cyber World
- ✓ Respect for Diversity
- ✓ Personal Safety Education (PSE)

Personal Awareness & Career Explorations (PACE) Classes 6-10

- ✓ Streams of Study & Colleges
- ✓ Assessments for Self Awareness
- ✓ Activities for Exploring Aptitude
- ✓ Univariety
- ✓ CAP - Career Awareness Program

Global Responsiveness & Sensitivity Program (GRASP) Classes 1-10

- ✓ Care for Living Beings
- ✓ Protecting the Environment
- ✓ Using the 5Rs - Reduce, Reuse, Recycle, Repair, Refuse
- ✓ Conserving Resources
- ✓ Nature Camps
- ✓ Excursions & Trails

Annual Fests & Events Kindergarten to Class 10

- Kindergarten**
- ✓ Kaleidoscope
- ✓ Head-Over-Heels
- ✓ Fun Fair
- Primary/ Secondary**
- ✓ Crescendo Cultural Day
- ✓ Momentum Sports Meet
- ✓ Effervescence Exhibition

Enrichment Activities Classes 5-10

- ✓ Global Schools Program (SDG & Community Projects)
- ✓ Inter-School Competitions & Tournaments
- ✓ External Examinations
- ✓ Student Council & House Activities
- ✓ Clubs

BCG Initiatives

Primary Enhancement Program (PEP) - The BCG Primary Enhancement Program is a unique initiative carefully designed to cater to the needs of our selected, talented young students of Grades 4 and 5. It is specifically designed to foster self-awareness and cultivate 21st-century skills, helping students to evolve into reflective, mindful, and analytical thinkers through engaging activities and valuable information beyond the standard curriculum.

Learning for Enhancing Academic Prowess (LEAP) - Designed to help our Grade 10 students who excel in academics, the BCG LEAP program is driven by our senior and highly qualified faculty members. They use their expertise and competence to guide the meritorious students to reduce the margin of error, if any, and attain the best score through individual and in-depth guidance and feedback thereby helping them to hone their content skills, master time-management and test preparation, and maximize their scores.

Robotics - Our school has introduced robotics classes which is an exciting way to acquaint students with STEM education. It encourages students to think creatively, come up with new and innovative ideas, and build and design novel solutions to real-world problems. It gives students a chance to explore the world of technology, innovation, and AI.

Cambridge Evaluation and Monitoring (CEM) - Our school has partnered with CAIE to introduce CEM. CEMs are baseline assessments that aid in accurately measuring a student's potential and progress. A valuable tool, the scores help in understanding and addressing the unique and individual education requirements of the students. It enables one to make the best possible decisions, set realistic and motivational targets, and focus on progress. Eventually, this benefits our students to reach their full potential.

Opportunities for Students

International Olympiads in Languages, Science, Informatics, Reasoning & Aptitude

Club Activities - Music, Nature, Science, Dance, Literary, Band, Western Choir, Cyber, Fine Arts

Coaching - Football, Cricket, Handball, Martial Arts, Athletics, Volleyball, Basketball, Throwball, Archery

Leading Art & Crafts and Sports Competitions - Intermediate and Elementary Drawing Exam, Faber Castell Drawing Competition, Kalabharati Art and Drawing Competition, Mumbai School Sports Association (MSSA) Sports Competitions, District Sports Office (DSO), Inter-BCG Sports Tournaments, Cultural International Exchange Program

Mumbai International Schools' Association (MISA) Competitions, National Children's Science Congress (NCSC), Model United Nations Competition, International Representation in Football

Alumni Speaks

At Bombay Cambridge, every child was taught - whether in classroom, exhibitions or competitions - that aspiration is good, that everything is possible if one sets one's mind to it, and that courage, confidence, strategy and diligence were greater determinants of achievement than one's background. What is likelier to affect a child's attainment in school and in life is his or her mental and emotional well-being. This is one area where I believe Bombay Cambridge sets the gold standard.
